Changes

Are They Good or Bad?

Changes are an inevitable part of life. So why do we resist change? I have read several explanations but, especially after a certain age, we all like things to remain the same. Change takes thought; it *requires* energy. In fact, if we are not careful change will take over--ruling over us rather than us ruling over it.

So why change at all? Why not remain exactly where and what we are right now? First of all anything that does not change becomes stagnate or atrophies. In other words, it is no longer useful. This is a law of the universe and our lives are no different. We must choose to change and grow or become ineffective—a simple choice.

Secondly, as Believers, we have a mandate to "... see what God is saying" (Habakkuk 2:1). When the cloud moves, we must move with it or get scorched in the hot, dry sun.

Once we were on a guided hike--in the desert, at night (aren't snakes and other such dangerous animals nocturnal?). We realized it was not wise to allow the park ranger to get very far

ahead of us, as we were not allowed to use flashlights. There were dangers and if anyone in the group fell too far behind many things could happen. Use your imagination, but besides the obvious, there was another important thing. We could not hear what she was saying and actually we learned a lot that night. (Do you know why animal's eyes are all different colors when a light catches their gaze in the darkness?)

None of us want to fall behind or become ineffective. Thus the changes you may have noticed in this newsletter. Our logo has changed and so has the ministry name. The cloud has moved; therefore we must move. **The logo and name reflect what we see God saying** on our behalf.

Many of you know we are spending the majority of the year in Germany. Ministry trips to other countries are still a part of who we are, but not at the same rate as in the past. Last year, in addition to the months we spent in Deutschland, we were in Turkey ministering with an awesome team of young people ministering in some very interesting places. We also had the privilege of training leaders in the city of Istanbul. This year we are already scheduled to be in Austria.

So as we move forward, please stand with us in your prayers and support. This is a very significant time to which you and I have been assigned. Be careful not to become stagnate or atrophy!

You may now write your checks out to Destiny Leadership International. Living Water Ministry International account will still be available for the next two-three months to give you time to make the transition. If you have any questions please contact us using any of the addresses below.

Equipping & Releasing

Apostolic Life & Leadership

Embracing new apostolic shifts in the church require us to change the paradigm by which we execute new plans. Although some remain valid, many of the old ways of thinking must be allowed to die a graceful death. With these shifts in focus the church will be more equipped to bring relevant communication of eternal truths to the people in our sphere of influence. As believers we must reconnect

to our identity in the following ways:

- *We are a covenant community*, fulfilling our prophetic role by declaring and demonstrating truth, righteousness (right standing), peace (shalom) and justice into human relationships and structures.
- *We are a nation of priests*, charged with bringing the lost into the boundaries of God's grace, "So that none perish and all come to knowledge of the truth." II Peter 3:9
- *In our kingly role*, we are charged with building nations, bringing harmony to chaos, and calling governments to care for people and proclaim the gospel of freedom.
- *We must eliminate the "two-class" system of laity and clergy* which places believers as second class citizens in the Church.
- *Remove the "Santa's Helpers Syndrome"* that relegates believers to mundane tasks, while elevating clergy as the only professionals capable of ministry.

Discipling Nations

Shifting the Power Base of Culture

Preparing our generation to penetrate and influence the seven mountains of culture with biblical truth is a mandate of our time. In any society there are seven major areas (mountains) that influence culture: religion, family, business/finance, government/law, arts/entertainment, communication/technology, education.

In October of 2009, we will join Manfred and Gabi Obst who have pastored the Jesus Haus Gemeinde here in Bad Langensalza, (former East) Germany for 20 years to begin the Pioneer International

Discipleship and Training School (PIDTS) here in the state of Thuringen. Manfred and Gabi bring a unique and passionate vision for discipleship and church planting in East Germany, which will be a platform for reformation in many countries.

Our vision is to equip believers and develop leaders to identify and activate their spiritual gifts and then to release them into society to demonstrate and fulfill their God-given assignment in the earth. The PIDTS experience will prepare a new generation of leaders to lead in the following disciplines:

- Prophetic and Prayer Evangelism
- Pioneering and Church Planting
- Spiritual Gifts, Natural Abilities, and Acquired Skills Application
- Pulpit and Market-place Ministries
- Biblical and Apostolic Life Application
- Leadership Skills and Mentoring
- Strategic Intercession and Spiritual Disciplines□

On February 20-22 we joined The Jesus Haus Gemeinde family from Bad Langensalza, Thuringen for a winter gathering. Multiple generations joined together to set strategy for the future.

Linda was asked to teach "The Prophetic in Daily Life". As a prophetic and priestly people we must realize the prophetic was never meant to stay solely within the four walls of the building. Jesus set the standard when he spoke directly into the life of the woman at the well in John 4. People are looking

Thank You!

So many thanks to the people who fed and housed us during our time in the United States. Without a home to relax in, it was so important to have people who realize the need to have a home away from home.

Those who live a life of giving are a snapshot of God.

Thank you for giving us a picture of God via opening your home and heart to us.

for answers and now is the time for God's people to rise up and be the conduit for the solutions people so desperately need.

As Believers we are actually in two places at once—we have one foot here on this earth, yet we are seated with Christ in heavenly places, where the answers are.
